

VIGNESHA MOORTHY V

Software Developer | Web & Android Applications

Tirunelveli, Tamil Nadu | vgnshmrth@gmail.com | 9360794681 | linkedin.com/in/vignesha-moorthy-46836827a

SUMMARY

Software Developer with hands-on experience building web and Android applications using Java, Kotlin, PHP, and MySQL. Skilled in RESTful API development, MVC architecture, database design, and Android development with Firebase. Strong foundation in object-oriented programming, data structures, and SQL optimization, with a passion for building scalable, efficient, and user-focused software solutions.

TECHNICAL SKILLS

Programming Languages: Java, Python, C, Kotlin

Web Technologies: HTML, CSS, JavaScript

Backend & Database: PHP, MySQL, REST APIs, MVC Architecture

AI & Machine Learning: Generative AI, Scikit-learn, TensorFlow

Mobile Development: Android (Kotlin/Java), Firebase

Tools: Git, GitHub, VS Code, Android Studio, XAMPP

Core CS Concepts: OOP, Data Structures, CRUD Operations, SQL Query Optimization

PROJECTS

Organ Donation and Management System

Web Application

PHP, MySQL, HTML, CSS

- Built a web application to manage donor and recipient data efficiently, implementing full CRUD operations for registration and organ matching.
- Designed a normalized MySQL schema and optimized SQL queries, applying MVC architecture to improve maintainability and scalability.

EV Station Finder and Service Companion

Android Application

Kotlin, Firebase, Android Studio

- Developed an Android app to locate EV charging stations and service providers, integrating real-time location-based search.
- Implemented secure user authentication and structured Firebase data management, with a responsive UI across screen sizes.

Business Analytics & Digital Growth Project

Freelance

MS Excel, Google Sheets, Google Analytics

- Conducted market and competitor analysis using structured data evaluation methods to identify actionable optimization opportunities.
- Analyzed user engagement metrics and supported data-driven digital growth strategy, applying analytical problem-solving to business goals.

CERTIFICATIONS

- Soft Skill Development — NPTEL Course (Jul 2024 – Sep 2024)
- Generative AI — Udemy Course (Mar 2026 – Jun 2026)

EDUCATION

Master of Computer Applications (MCA) — Manonmaniam Sundaranar University 2023 – 2025

- CGPA: 8.0

Bachelor of Computer Applications (BCA) — Sadakathullah Appa College, Tirunelveli 2020 – 2023

- CGPA: 8.3
